With a personality as large as the skies he flies, Johnny White is the hardest working man in the air show business. Living his perilous passion from dawn to dusk, like other great artists, he is obsessively driven to develop, produce and perform.

White will bring his spectacular acts to the 2012 Ashe County Wheels and Wings Air and Car Show on Saturday, June 9th.

His awe inspiring daredevil performance in his Pitts S2C with precision aerobatic flying, flat spins, a Lomchevoc or two, a few multi turn tumbles, torque rolls and back to back nonstop aerobatics make Johnny White, Aviator the hit of the air show.

Johnny will surely please the crowd with his hilarious performance as Baron Von Groundloop. Dressed in period costume "the baron" interacts with the crowd, spinning his tale of how he was taught to fly by "Baron Von Richtofen". The Baron then crawls into his authentic 1946 J3 Piper Cub for a choreographed show that will have the crowd screaming in fear, then breaking out in laughter, and then giving "the baron" a standing ovation.

Johnny White, Aviator and Baron Von Groundloop are no doubt going to be the stars of the 2012 Ashe County Wheels and Wings Air and Car Show.
