Blowing Rock, NC resident, Robin Coffey, was in an accident on August 30th, 2012. He fell approximately 25' from a roof, sustaining a skull fracture, broken cheek bones, a broken rib, and shattered wrist. He was airlifted to Johnson City Medical Center, where he stayed until September 7. He is currently undergoing physical therapy on his wrist in hopes of getting back to work soon. The bills associated with his time in Johnson City and on his wrist are astronomical. Robin is always willing to help others in their time of need. So, our goal is to do the same for him: to raise funds to assist with those medical expenses.
