Wilkesboro Police and State officials are investigating a report of a TASC counselor forcing himself on a woman on probation. The Sexual Battery report came from a February incident that occurred at the Wilkes County Courthouse and was reported by the 24-year old on March 1st. After a meeting with her probation officer, the woman told investigators that she was told to meet with her TASC manager, and that after that meeting, the man is reported to have forced himself on the Ferguson woman. Wilkesboro Police opened their investigation Tuesday, but have noted no arrests at this point.
