---

Fire destroyed a pickup truck traveling NC 105 just after noon today. Foscoe Fire was called to the scene at about 12:15 after the engine compartment of the truck erupted in flames as it pulled over onto the lot of the Tomato Shack just above Bairds Creek Road. In spite of the intensity of the fire reported by the first 9-1-1 callers and still evident as the fire company arrived, Foscoe firemen had the blaze out in short order, but the truck was totaled. No injuries were reported, the cause still under investigation.
