An instructor at the Watauga Campus of CCC&TI snapped a shot of a student they probably won't find on the class roll. The picture was shot at about 5:30 Thursday afternoon on one of the parking lots on campus. The instructor shot the picture safely inside her vehicle. Area residents have been cautioned a number of times of late about black bears roaming our neighborhoods, the most recent warning given this week by Blowing Rock Police, who report a number of in and around town bear sightings. They cautioned to remove food sources around the outside of your home, and never to intentionally feed bears.
