New Generation Homes in Wilkes reported someone broke into three homes on their lot before the homes were even sold.

The incidents are believed to have occurred between Friday and Saturday. A stove and a refrigerator were taken, and floors and doors were damaged in the process. The value of the stolen and damaged property is estimated to be \$5,800, not including the loss New Generation expects to incur when selling damaged homes. Anyone with information is encouraged to call law enforcement immediately. As of yet, there are no suspects.
