Boone Police investigators spent Monday pouring over evidence in the rape of a 21-year old ASU Student, an incident from the early morning hours of Sunday. Investigators say the woman was pulled from King Street across from Earth Fare into a dark area. The attack was between two apartment buildings, but residents I talked to said they heard nothing, but said the area there is extremely dark. ASU issued a bulletin about the incident, and both ASU and Boone Police are hoping for increased caution, especially for female students walking at night. Police are asking for anyone with information to call police or High Country Crimestoppers at 828-268-6959.
