An accident near Brushy Fork Baptist Church outside Boone stalled traffic last night around 9:30. Fire and law enforcement officials were on scene, as well as medics. Little has been released so far about the crash- but listeners reported that at least two vehicles were involved. A call for a helicopter transport was cancelled, leading one law enforcement source to believe injuries were not life threatening. More information on the crash should be available soon, both on air and on www.goblueridge.net.
