Wednesday, 14 September 2011 03:52

The tractor trailer wreck on NC 194 South just above Valle Crucis was finally cleared just before 2 this afternoon. The tanker-style truck got hung in a tight S-curve south-bound at about 11:15 last night, and blocked the road overnight. The truck carried some 50,000 lbs of plastic pellets that had to be off-loaded

to another tanker before the truck could be righted. No one was injured in the crash, according to the SHP, but the wreck caused detours for school and other traffic with few options for by-passing the area except for long detours.
