

West Jefferson joins the voluntary conditions club

Written by

Monday, 17 September 2007 20:34

As of yesterday, West Jefferson joined other High Country communities in issuing voluntary water conservation measures.

Ways to conserve include using dishwashers when full only, adjusting water levels on washing machines, installing tank displacement inserts in toilets and finding and repairing leaky faucets. For a complete list of the voluntary water conservation measures, call West Jefferson Town Hall at 336-246-3551.
