A two alarm fire damaged a Seven Devils home last night, a blaze that busied firemen most of the evening. Just before 8pm, residents of the 227 Bradley Blvd. home spotted smoke near the fireplace, and they called 9-1-1 while evacuating the structure.

First Seven Devils units on the scene found smoke coming from the wall adjacent to the fireplace, and back-up was called from Foscoe. The two departments managed to contain the fire to the wall, with some water damage in that area and smoke damage through the house.
