---

An update on a story we brought you earlier this week- security is stepping up after early Monday morning break-ins at the Boone Mall.

Police told us earlier this week that an unknown suspect tried to shoot out a parking lot light before forcing entry into the back door. The suspect then entered Maurices and Bath & Body Works. While a small amount of cash was missing from Bath & Body Works, nothing was reported missing from Maurices.

Three doors had to be replaced due to forcible entry.

A security system is being installed on all entrances, as well as multiple security cameras throughout the mall.

In the meantime, anyone with information is encouraged to call Crimestoppers at 828-262-4555.
