Fire destroyed an Ashe County mobile home late yesterday afternoon as a number of departments worked to keep the fire from spreading from other structures in the mobile home park. The fire call came in at 5:25 from 177 Bluegrass Drive in Jefferson with Jefferson, West Jefferson and a number of other fire departments called to the scene. First arriving units reported that the mobile home was fully involved in flames, Sheriff James Williams saying that much of the effort was spent to keep other units from catching fire. He said that it appeared no one was at home in the unit destroyed in the fire. Ashe investigators are seeking the cause of the fire.
