Blowing Rock Police Department is seeking information on a stolen trailer. The enclosed trailer, owned by KBI Construction, was taken from a home on Chestnut Circle, believed to have been taken between December 23rd and December 27th. The trailer is described as a white, single axle enclosed trailer with KBI Kramer Build lettered on the side. Anyone with any information is asked to contact the Police Department at (828) 295-5212. The Blowing Rock Police release notes that several trailers have been taken throughout Watauga County of the past few months, and they caution that if you own tag-a-long trailers you should take precautions to avoid theft. Several types of trailer coupler locks are available commercially or a chain through the wheel and around the axle and locked with a pad lock will serve the purpose. These trailer locks will likely deter thieves looking for an easy target.
