A man suffered a head injury in the crash of an electric bike on the grounds of Flintlock Campground this afternoon. Watauga Medics, Boone Fire and the State Patrol were all sent to the scene just after noon, finding 71-year old Johnny Morgan of Lexington suffering from the crash of the cycle. The State Patrol report says that Morgan's injuries were not life threatening, and that he hit a speed bump on the Flintlock Campground Road and lost control. He was transported by Medics to Watauga Medical Center for treatment.
