Ginny, a 14-month-old Cocker Spaniel is looking for a new home. She belonged to a lady who has been moved to assisted living. Ginny is healthy and up to date on all her shots. She does need a little house training and would be best suited to go to a home without children. Her vet said "with some training and patience she would make someone a sweet companion." Please call High Country Radio at 828-264-2411 if you know of anyone one who would be interested in her or a group that would be interested in fostering her.
