

LOST DOG: ROCKY

Written by Karen Ventrone

Monday, 03 February 2014 16:43

Rocky went missing on Friday, Jan 24 around the Clint Norris area, about a mile up 194. Rocky is a pit terrier mix, neutered male, 3 years old, about 55 lbs, brindle coat with a black snout and white streak in the center of his chest. He is well mannered but loves to run, so if someone finds him be certain to only walk him on a leash and to not leave the front door open! He WILL scoot out. He is also has a microchip registered to Ben Wilson. If you have an information regarding his whereabouts please contact me @ (704)609-2164! I miss him greatly and won't rest until he is home!
