I am very happy to announce that both of these babies are home safe and sound!!!!

2 Labs were lost on 10/20/2009 in the Bethel/Beaver Dam area near the Tenn. line. One is a 4 month old, female full-blooded Black Lab. Her name is Missy. She is wearing a brown leather collar. The other is a 4 month old, female full-blooded Chocolate Lab. Her name is Sugar. She is wearing a black leather collar. Neither are wearing tags. If you have seen these babies please call Rick or Teri @ 828-297-5846.
