US 321 was closed south of Blowing Rock after a fatal accident that involved two tractors trailers and a fire. Law enforcement has reopened the north-bound side, and are diverting traffic to one lane near the wreck site to keep some traffic flow going in both directions near the crash. The DOT blocked the road at Green Hill Road at the Green Park Inn, and the cleanup and investigation into the accident will keep traffic off of at least part of the road for some time.
