

There were injuries in a three-vehicle crash on the NC 105 bypass this morning just across from the Coke plant. The crash occurred in a work zone on the bypass, and involved a Chevrolet SUV striking the rear of a small Subaru, which, in turn, struck the back of an Isuzu SUV. Watauga Medics worked to carefully remove the injured from the Isuzu, while Boone Fire directed traffic through the wreck site. The state patrol has that wreck under investigation.
