No injuries were reported as a car flipped over, landing on the parking lot of the group of restaurants at Howard and Rivers Streets late yesterday afternoon. Fortunately, the flipping vehicle missed the gathering of students out on the first warm afternoon of late as it skidded on its top on the lot. Boone Police were told by the driver that he had been waived through the intersection by another driver, neither seeing that a vehicle was approaching in the lane behind the driver waiving the Subaru station wagon through. The two vehicles hit, and the Subaru flipped, landing off the road on the Parthenon lot.
